NOTABLE WOMEN ON CORPORATE BOARDS

LISA REARDON

CEO

OWNERSEGE INC.

Lisa Reardon, CEO of OwnersEdge Inc., and Micheal Dover, president of **R&B Wagner, Inc.**, joined the R&B Wagner board within one year of each other. Dover says he has seen Reardon's positive influence on the board in many areas.

"As the CEO of an ESOP company, OwnersEdge, Lisa has provided valuable guidance to R&B Wagner on its journey as a relatively new ESOP company itself," Dover said. "She introduced me to the ESOP regional and national organizations and helped shape our internal ESOP communication team to expand our understanding and messaging to employee/shareholders."

Reardon regularly gives her time to the ESOP Association to expand its communication and mentoring programs.

"Lisa has brought a passion for human development, work culture, career growth along with corporate governance, incentive plans, strategic planning, and product planning to our board," Dover said. "She serves on our Compensation Committee and has been instrumental in plan designs for R&B Wagner's executives."

In addition, Reardon has been an invaluable board member for **Kessler's Diamond Center** for the past eight years, according to Kessler's president Joe Gehrke.

"Lisa's experience as a CEO in an ESOP-owned business really helped us in that transition from a privately held company to one that is owned by 100+ employees," Gehrke said.

Notable Women on Corporate Boards shines a spotlight on valuable contributions and insights that they provide to the businesses whose boards they sit on and the additional contributions that they make to the community. The leaders profiled were nominated by their peers and showcase the diversity of company leaders and corporate board membership in our market. Their leadership is setting an example to shape a better future for our region.
